LinkedIn: linkedin.com/in/himanshu-solanki-b850162b0

PROFESSIONAL SUMMARY

MCA student with hands-on experience from two web development internships: a full-stack Ticket Booking System (React.js, Node.js) and four responsive JavaScript web applications. Experienced with REST APIs, ASP.NET (C#) and SQL Server. Seeking a Frontend, Web or Full-Stack Developer internship or entry-level role.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), C#, SQL, HTML5, CSS3
Frontend: React.js, Bootstrap, Responsive Web Design, DOM Manipulation, CSS Animations
Backend: Node.js, ASP.NET, REST APIs, MVC Architecture
Databases: Microsoft SQL Server, MySQL
Tools: Git, GitHub, Visual Studio Code, Visual Studio, SQL Server Management Studio, Chrome DevTools, Canva
Concepts: Object-Oriented Programming (OOP), CRUD Operations, Form & Data Validation, Session Management, Manual Testing

EXPERIENCE

Frontend Development Intern 2026
CodeAlpha | Remote

- Developed four responsive web applications (Image Gallery, Calculator, Music Player and Personal Portfolio) using HTML5, CSS3 and vanilla JavaScript, with CSS Grid, Flexbox and media queries for mobile and desktop.
- Wrote a custom expression parser for the calculator that handles operator precedence without eval(), with full keyboard support and a calculation history saved in localStorage.
- Built a music player with the HTML5 Audio API (play, pause, seek, volume, playlist, shuffle, repeat and autoplay) and an image gallery with category filters and a lightbox.

Web Development Intern 2025 - 2026
TechRover Solutions Pvt Ltd

- Developed a full-stack Ticket Booking System with separate Admin and User modules using React.js and Node.js.
- Built reusable React.js frontend components and Node.js backend REST APIs for the booking workflow.
- Implemented ticket booking, user management and admin functionality, from the user interface to the API layer.

PROJECTS

GameHub - Web-Based Gaming Platform 2025
ASP.NET, C#, SQL Server | BCA Academic Project

- Developed a web-based gaming platform with user login, a game dashboard, score tracking and a leaderboard.
- Designed a normalized SQL Server database for user, game and score data.
- Performed manual testing of the login, dashboard, score tracking and leaderboard features.

Personal Portfolio Website 2026
HTML5, CSS3, JavaScript

- Built a responsive portfolio with scroll animations, a working contact form that delivers messages by email, and a downloadable resume.
